

## RESOLUTION EXAMPLE #2

Subject line: Sudan

Submitted to: UN Security Council

Submitted by: Sudan

The United Nations Security Council:

Acknowledging the missile attack on the sovereign country of Sudan by the United States,

Contemplating the idea that target destroyed by the United States had no military or terrorist capabilities,

Fully aware that the attack was in response to the United States embassy bombings in Kenya and Tanzania, in which the United States embassy bombings in Kenya and Tanzania, in which the United States was the victim of blatant terrorist attack where many lives were lost,

Deeply concerned that the building destroyed was used only for the purpose of making prescriptions medicine for humanitarian purposes,

Taking into consideration the United States right to defend their land and property, domestic and abroad, against any attack:

1. *Calls upon* the Secretary-General to create and send a fact-finding mission to Sudan so that they might independently investigate the site of the attack and determine whether or not the site was capable of producing chemical agents used in chemical warfare;
2. *Urges* the United States to turn over any evidence to the fact-finding mission that it might have that the facility destroyed was producing chemical warfare agents;
3. *Requests* that the fact-finding mission report back to the Security Council in six months to reveal any and all evidence and or findings that they might have collected during the investigation;
4. *Appeals* to both sides to work together in order that a resolution in this matter might be reached; and
5. *Encourages* the United States to finance a new pharmaceutical facility in Sudan if in the event that the fact-finding mission reports that facility was not being used in any way to promote or produce chemical warfare agents.
